

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/jtd-20-1623.	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We are willing to share raw data, questionnaires, and consent forms.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We do not think these are worthwhile to share in this case other than the data above.
5	When will data availability begin?	Upon publication.
6	When will data availability end?	No hard end date.
7	To whom will you share the data?	This will be determined on a case by case basis. In order for this data to be released, this will need to be approved by our IRB as well as an IRB within the requesting institution. The individual requesting data needs to be associated with either a medical, government, or industry organization.
8	For what type of analysis or purpose?	A broad range of applications are feasible.
9	How or where can the data/documents be obtained?	E-mail <a href="mailto:zikosta@stanford.edu">zikosta@stanford.edu</a> to discuss plans for data.
10	Any other restrictions?	We may impose other restrictions depending on the nature of the request. Strict protocol to protect PHI must be followed.
