

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-20-3185	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data about plasma samples from 245 patients with advanced NSCLC and 30 healthy donors will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical researchers who are interested in studies of pemetrexed-based chemotherapy in various tumors.
8	For what type of analysis or purpose?	For analysis to evaluate the potential use of plasma TS and DHFR mRNA levels as biomarkers for predicting sensitivity to pemetrexed-based chemotherapy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: cnbqem79@163.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
