

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-20-2790	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The quantitative airway dimensions of patients with COVID-19 will be shared, including the wall area percentage (WA%) and inner area, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will be shared if requested. Written informed consent for data collection was waived for all participants.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the SARS-CoV-2 has mutated and could cause different manifestations regarding the airway dimensions.
7	To whom will you share the data?	Physician or pulmonologists who are interested in the airway dimension changes of patients with COVID-19.
8	For what type of analysis or purpose?	For pool analysis to further investigate the changes of airway dimensions.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: xujiaxuan@stu.gzhmu.edu.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
