<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	The survival data in particular will be shared, and we also evaluated pulmonary hemodynamic before and after the restrictive mitral annuloplasty in patients with advanced cardiomyopathy, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and informed consent form will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Cardiovascular surgeons and physicians who are interested in the current study.
8	For what type of analysis or purpose?	For analysis to evaluate the changes in pulmonary hemodynamic and impact of elevated TPG on outcomes following restrictive mitral annuloplasty in patients with advanced cardiomyopathy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: s.kainuma19780320@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
