

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-21-380	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The overall and disease-free survival data of Pancoast tumor patients in BC will be shared, in addition to statistical analyses around the prognostic value of pathological response.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan can be shared upon request.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Oncologists who are interested in studies of Pancoast tumors
8	For what type of analysis or purpose?	For analysis to evaluate clinical outcomes of trimodality therapy in Pancoast tumor patients
9	How or where can the data/documents be obtained?	Emails can be sent to the address below to obtain the shared data: tamilin@alumni.ubc.ca
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
