

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-20-3195	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The clinical manifestations during each follow-up visit in particular will be shared, because some children have relapses during the follow-up process, and we will intervene with other treatments.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication time, because the study will continue for a longer follow-up period.
7	To whom will you share the data?	Pediatricians or respiratory specialists who are interested in studies of PIBO in children.
8	For what type of analysis or purpose?	For analysis to evaluate the effectiveness and safety of the BAMA regimen in the treatment of PIBO in children.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: donglinek@163.com.

10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
